April 25, 2017

Dear Parents/Guardians of Sixth Graders,

The Ohio Department of Health requires that all students entering the 7th grade for the 2017-2018 school year, have the Tdap vaccine (tetanus, diphtheria, and pertussis booster) and the Meningitis vaccine. Therefore, your current sixth grader will need to show written proof of having received these vaccines **prior to entering 7th grade**.

As a convenience, Carroll County Health Department will be at Conotton Valley High School **Thursday May 11th at 7:15am** to offer the Tdap and Meningitis to our 6th Grade students. The cost is \$21.00 per vaccine or if you bring your insurance card, they will be glad to bill your insurance. **Parents must be present with the student**. If you have any questions concerning billing, please call Carroll County Health Department at 330-627-4866. We ask that you **RSVP by Tuesday May 2nd, 2017**.

If you choose to not to participate in the walk-in clinic, please make arrangements with your physician or the health department to have these required vaccines completed. Once your child has received the vaccines, please forward the documentation to the school.

Furthermore, this would be a good time to talk to your healthcare provider about other vaccines that are recommended (i.e. Varicella and HPV).

Please check with your healthcare provider soon to avoid the back to school rush.

If you have any questions, please feel free to call the school.

Sincerely,

Drew Meister, Principal

Jill Putnam, School Nurse
